**Monoblock Performance:**

More power: 2x500W  
Higher fidelity: THD 0.00025%

Devialet: the best  
technology in the world

Devialet's breakthrough technologies deliver unparalleled performances  
and guaranteed reliability. The patented ADH<sup>®</sup> technology is a revolution  
in the Audio world.

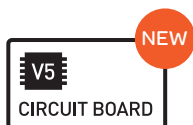

21★  
awards

#1 in the World  
21 international awards  
Best measured performances

## Pure analogue sound, smart digital power

Harmonic distortion - THD+N at full power: 0.001% | Intermodulation - IMD SMPTE: 0,001%  
Signal-to-noise ratio: 130 dB unweighted | Thermal distortion: unmeasurable | Output impedance < 0.001Ω

Advanced electronic circuit board with 2500 surface-mounted components, with no soldered wire. Made entirely in France.

- USB and Ethernet inputs
- Ultra low jitter digital inputs
- Advanced phono stage MM/MC
- Ultimate DSP for room correction and digital active crossover
- Dynamic and ultra efficient power supply

Devialet is the first high-performance audio system fully driven by software and with regular and free upgrades.

- Fully updated software platform
- Optimized signal processing algorithms
- New online configurator

New Universal Wi-Fi streamer Devialet AIR made for digital and online content.

- Proprietary lossless HD streaming
- Supports all music file formats

Devialet 170, actual size

Make a move  
to Devialet
