

MVP901 audio video player

- The MVP901 is designed to provide years of home entertainment enjoyment with its ability to upsample 1080P and lower resolutions to 4K Ultra HD.
- Perfect complement to the 4K compatible McIntosh MX122 or MX160 home theater processor and a 4K TV.
- Built in decoding of Dolby® True HD and DTS-HD Master Audio™ puts you in the center of the action. Also passes the latest object-based 3D audio formats such as Dolby Atmos, DTS:X™ and Auro-3D® to your compatible processor for a truly encompassing surround sound experience.
- A variety of advanced adjustments can be made to color, image detail and video performance to improve picture quality.
- Triple laser optical pickup is optimized for various disc types. State of the art processing power allows for ultra-fast playback start speeds.
- Also great for listening to music. CDs, SACDs and DVD-Audio discs are supported.

For Years of Home Entertainment Enjoyment
