

Debut Carbon Esprit

Audiophile „best buy“ turntable

- Lifestyle for vinyl fans
- 8,6" carbon tonearm
- Heavy non resonant acrylic platter
- Precision belt drive with synchronous motor
- New sorbothane motor suspension
- magnetic cartridge 2M red from Ortofon
- 7 high-gloss colours

Speed	33, 45 (manual speed change)
Drive principle	belt drive
Platter	300mm acrylic platter
Mains bearing	stainless steel
Wow & flutter	+/- 0,10%
Speed drift	+/- 0,80%
Signal to noise	- 68dB
Tonearm	8,6", Carbon
Effective arm length	218,5 mm
Effective arm mass	6,0 g
Overhang	18,5mm
Tracking force	10 - 30mN
Included accessories	RCA cable, lid
Power connection	110/120 or 230/240 Volt - 50 or 60 Hz
Dimensions	415 x 118 x 320mm (WxHxD) lid closed
Weight	5,6 kg net

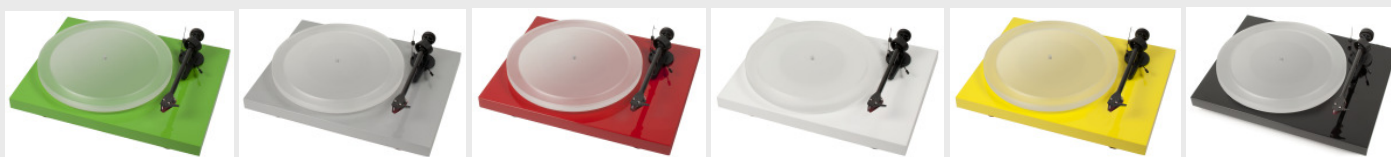

Debut Carbon / 2M red
 Retail price
399,00 €

The most-wanted audiophile design turntable with carbon tonearm!

The first Debut turntable, introduced in the late 1990s, was a revolution for the hi-fi industry. For the first time after the arrival of Compact Disc and the assumed demise of vinyl records, an analogue product re-emerged in the "mass market" – something all music lovers could afford. The new DEBUT CARBON ESPRIT has been designed to set new standards in this category for the coming decade – perfectly timed as analogue today is again a respected source, while the demand for good turntables is growing again!

The most obvious improvement is the inclusion of a CARBON TUBE for the tonearm, which increases stiffness and decreases unwanted resonance. This material normally is extensively used in high-end tonearms, but – because of cost reasons – was never used in products at lower price levels. Together with other improvements like an increase in platter size and weight to realize even smoother rotation and new design in motor suspension, the overall sound quality is greatly improved.

The DEBUT CARBON ESPRIT will be offered in high-gloss black or shiny red, green, blue, yellow, light-grey or white as no-added-cost option.

Upgrades & advantages over Debut III Esprit:

NEW: 8,6" Carbon tonearm

- ⇒ Higher rigidity
- ⇒ Much less reverberation
- ⇒ No sound coloration

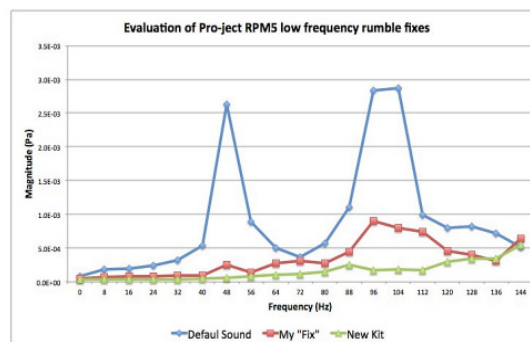

NEW: Heavy acrylic main platter

- ⇒ Higher diameter
- ⇒ Improved wow & flutter
- ⇒ High-class look

NEW: Sorbothane motor suspension

- ⇒ Less vibration
- ⇒ Minimised rumble
- ⇒ Interference-free drive mechanism

NEW: Premium cartridge options

- ⇒ Top-quality moving magnet cartridge from Ortofon
- ⇒ 2M red - audiophile upper class
- ⇒ Elliptical diamond stylus
