| Wow & flutter | +/- 0,10% |
| Speed drift | +/- 0,80% |
| Signal to noise | - 68dB |
| Tonearm | 8,6", Carbon |
| Effektive arm length | 218,5 mm |
| Effective arm mass | 6,0 g |
| Overhang | 18,5mm |
| Tracking force | 10 - 30mN |
| Included accessories | RCA cable, lid |
| Power connection | 110/120 or 230/240 Volt - 50 or 60 Hz |
| Dimensions | 415 x 118 x 320mm (WxHxD) lid closed |
| Weight | 6 kg net |

The best-buy turntable classic with carbon tonearm and computer connection!

The first Debut turntable, introduced in the late 1990s, was a revolution for the hi-fi industry. For the first time after the arrival of Compact Disc and the assumed demise of vinyl records, an analogue product re-emerged in the "mass market" – something all music lovers could afford. The new DEBUT Carbon has been designed to set new standards in this category for the coming decade – perfectly timed as analogue today is again a respected source, while the demand for good turntables is growing again!

The most obvious improvement is the inclusion of a CARBON TUBE for the tonearm, which increases stiffness and decreases unwanted resonance. This material normally is extensively used in high-end tonearms, but – because of cost reasons – was never used in products at lower price levels. Together with other improvements like an increase in platter size and weight to realize even smoother rotation and new design in motor suspension, the overall sound quality is greatly improved.

Because Debut Carbon Phono USB comes with pre-mounted cartridge and built-in phono preamplifier with USB output, connection to both line-level input of your hifi system and PC/Mac easily can be used simultaneously!

Colour options in high-gloss black or shiny red, green, blue, yellow, light-grey or white as no-added-cost option.

Upgrades & advantages over Debut III Phono USB:

NEW: 8,6" Carbon tonearm

- ⇒ Higher rigidity
- ⇒ Much less reverberation
- ⇒ No sound coloration

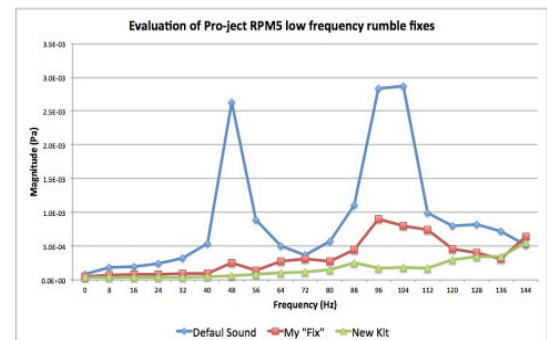

NEW: Heavier main platter

- ⇒ Higher diameter
- ⇒ Improved wow & flutter
- ⇒ Felt mat

NEW: Sorbothane motor suspension

- ⇒ Less vibration
- ⇒ Minimised rumble
- ⇒ Interference-free drive mechanism

NEW: Premium cartridge

- ⇒ Top-quality moving magnet cartridges from Ortofon
- ⇒ OM10 - versatile classic (elliptical diamond stylus)
