

Tube Box DS

MM/MC tube phono preamplifier

- MM & MC support
- Precise RIAA equalisation
- Ultra low noise circuitry
- ECC 83 tube output stage
- Input impedance adjustment for low output MC
- Input capacitance adjustment in 4 steps (MM & Hi-output MC)
- Switchable subsonic filter
- Gold plated RCA sockets
- Metal casing protects against vibration and interference
- Front-sided On/Off switch
- Faceplate silver or black

technical data

Tube assembly	2x ECC83 (12AX7)
Input impedance for low output MC	VARIABLE 10 ohms - 1000 ohms
Capacitance (MM)	47pF / 147pF / 267pF / 367pF
Gain MM / MC	40 / 50 / 60 dB
Signal-to-noise ratio	93dBA
THD	< 0,1%
RIAA curve accuracy	within. 0,5dB/20Hz - 20kHz
Subsonic filter	20Hz @ 18dB/octave
Input / Output	RCA
Power supply	18V/1000mA DC; 220 - 240V, 50Hz
Power consumption	max 490mA DC / < 1 watt standby
dimension W x H x D (D with sockets)	103 x 72 x 144 (156)mm
weight	1100g without power supply

Retail price
499,00 €

Premium phono preamplifier with tube output and highend sound!

This precision tube phono preamplifier benefits from outstanding circuit technology from Dr. Sykora and uses ultimate components. For the first time a variable selection of input impedance for MC cartridges can be done while playing a record! Other features include input capacitance for MM cartridges and switchable subsonic, that prevents your amplifier and speakers of ultra low rumble below 20Hz. All components including tube output and polypropylene capacitors are audiophile-grade and guarantee a breathtaking sound experience. A perfect upgrade for ambitious vinyl lovers!

Faceplate in silver
