# POWERFUL SOUND FOR YOUR TV

## SOUNDWARE XS DIGITAL CINEMA

### Key Features

Incredibly small speakers provide big, high performance sound

A few simple connections and you are up and running

Dolby Digital decoding Digitally Optimized Virtual Surround (Theater-like surround sound)

Dedicated music and movie playback settings (Sound is optimized for your content)

Included wall brackets can be positioned at almost any angle

Bluetooth enabled for music streaming (No docking needed, keep your smartphone with you)

**Powerful Performance** – This is the ultimate 2.1 Virtual Surround Sound speaker system from Boston Acoustics. Connect this system directly to your TV for a fully immersive sound experience. Thanks to Boston's Digitally Optimized Virtual Surround Sound processing, the two ultra-compact speakers and subwoofer deliver virtual cinematic surround sound effects that defy their size.

**EZ Connections** – The system is extremely easy to set up and use without the need for any additional components. The entire system can be used with your current remote control.

**Ultimate Flexibility** – One special feature is the selectable "Movie" or "Music" playback mode, tailoring the sound for both movies and music: "Movie Mode" for crisp, clear movie dialogue and powerful cinematic special audio effects while the "Music Mode" delivers concert-quality music reproduction.

### Other Features

- Control Pod learns your existing remote control
- Easy-guide wire channels for fast hook-up
- Front-firing subwoofer features 8-inch woofer
- BassTrac circuitry for clean bass at all listening levels
- Two AUX inputs for connection to iPod or other sources, 1x analogue RCA, 1x mini jack
- Remote control included
- Available in High gloss black and white
