"Definitely one of the best turntables in its price range."

- The Pro-Ject RPM 1 playback of the old blues is **first-class**. The **sound is differentiated** and, at the same time, built on a **solid and lush bass foundation**. But the Pro-Ject RPM 1 is particularly impressive when it comes to placing the singer's **voluminous, lush voice gigantically** in the middle of the room.
- For the price range up to 500 euros, in which the Pro-Ject RPM 1 plays, there are no shortcomings.
- This inexpensive entry-level model is **amazingly good at bass, treble, and space**.
- Due to the **increased precision**, sound appears **more differentiated and detailed** in front of the **dark bass background**.
- The RPM 1 Carbon lives up to the demands placed on an innovative and committed manufacturer like Pro-Ject! This inexpensive turntable boasts a **unique design** and, the **craftsmanship is flawless**.
