

Automat A1

"Better than 'budget'"

- Man-oh-man, it **sounds swell right out of the box.**
- Believe me: the **stock set-up will satisfy any newbie...** and **quite a few jaded veterans.**
- This is more **vibrant and inviting.**
- **Stability and solidity** were the other early impressions.
- The **airiness** made it easy to **hear each voice** amidst the harmonies.
- What surprised me was the **weight** the A1 was **able to deliver.**
- The A1 reproduced this track with **precisely the refinement** needed.
- I was **rewarded with a lushness** I simply did not anticipate.
- There was **top-to-bottom coherence.**
- It's not just as a **champion of automation** for which the A1 deserves recognition: it also proves that a sub-£400 **all-in-one package can truly satisfy.**
