- The **Pro-Ject Debut Carbon EVO** has replaced the Denon DP-400 as **our top pick**.
- We recommend the Pro-Ject Debut Carbon EVO because it **includes all of the qualities required** to create the **most enjoyable listening experience**.
- The Pro-Ject Debut Carbon EVO offered the **best sound of all the turntables we've tested**, pairing **tight, precise bass** with a **wide soundstage** and **great sonic detail in the midrange and treble**.
- It is **easy to set up** thanks to an **included pictorial guide that shows you everything you need to do**.
- The **build quality is superb**.
