

Pro-Ject Turntables go wifi – and the EISA folks love it.

We're proud to announce that our T2 W wireless turntable has been awarded "Best Vinyl System 2023 - 2024".

Our team has feverishly been working on an affordable, quality turntable with reliable wifi connectivity. The resulting T2 W is so good, we've earned an EISA straight out the gate! We hope to be able to make vinyl enjoyment accessible to a whole new generation of listeners who can now stream their records to multiple devices in the entire house.

Pro-Ject T2 W **Bringing Vinyl playback to your network**

OFFICIAL EISA Award citation :

The T2 W is an audacious attempt to marry analogue vinyl playback with digital convenience, and one that Pro-Ject manages to pull off with zest. At its core is a belt-drive turntable with 9in aluminium tonearm and Sumiko MM cartridge, plus electronic speed control, but elevating the T2 W is an integrated wireless module that lets owners stream their music to networked speakers and hi-fi systems. The 'Pro-Ject Control' app makes setup and operation easy, with options including lossless 48kHz/24-bit FLAC output and automatic streaming when you drop the needle. Spinning discs, while integrating the vinyl format into a 'modern' system, has never been easier.

The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for a reasonable price. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We closely work with partners from the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
