

Debut Carbon DC

„Lastly for its price point, the Debut Carbon DC has little competition.“

6 Reasons why you should consider the Pro-Ject Debut Carbon turntable:

- The Price: A Clear Option Above Entry-Level
- Product Evolution + Economies of Scale
- Carbon fiber tonearm
- Quality, Modular, Upgradeable Components
- Not Having A Built-In Preamp
- You Should Know: How To Change Speed From 33 to 45 rpm

In summation

The Pro-Ject Debut Carbon DC is a precision turntable with high quality, custom components especially where it counts: tonearm and motor system. Its thoughtfully designed feature set considers both out-of-the-box play and future upgrades. Lastly for its price point, the Debut Carbon DC has little competition.
